

## Kill the Light

Mustasch

I tried to walk on water  
I tried to lead the blind  
I couldn't save the mortals  
So they were left behind

The cross I bear on my shoulders  
The thorns I walk upon  
Mine is to do nothing  
And even this, I'm doing wrong

I'm around, pray for light  
Here I am, we're going down  
And darkness rise  
'Cause I have killed the light

Judgement day is calling  
The sinners stand in line  
All the angels have fallen  
But I'm just doing fine

The cross I bear on my shoulders  
The thorns I walk upon  
Mine is to do nothing  
And even this, I'm doing wrong

I'm around, pray for light...
