Biased Bigotry

MxPx

It's so easy to find the faults
in everyone else & not look at myself
I'm geting used to not having to
look at the facts of where I'm at

You don't know me so don't judge me
Your biased bigotry can't control me

God's son my judge only He & not you who ar you
You see my skin God see's my heart deep within

The way I see the way it seems to me
I won't agree you can't live my life for me
