

## Don't Forget Me (When You're Gone)

MxPx

No I'm not mad about you  
Just a little sad without you  
I know it's mostly all my fault

I drive myself insane  
And there's no one else to blame  
And I know I hurt you time and time again

And don't forget me when you're gone  
And don't forget me when you're gone

Cause my heart still hurts  
My heart still hurts  
My heart still hurts

My heart still hurts  
My heart still hurts

You stop my world from turning  
You could make the sun stop burning  
That's something I could never do

And don't forget me when you're gone  
And don't forget me when you're gone

Cause my heart still hurts  
My heart still hurts  
My heart still hurts

My heart still hurts  
My heart still hurts  
My heart still hurts

There's something in your eyes that saw through my disguise  
And just kept on right on looking through

Cause my heart still hurts  
My heart still hurts  
My heart still hurts  
My heart still hurts

My heart still hurts  
My heart still hurts.
