

Get with It!

MxPx

Kid quit it, get with it
Kid quit it, get with it
You're getting on my nerves
Is that what I deserve

I know I can't play guitar
So kill me quickly
And I'll be glad I'm gone

You wouldn't be so cool
If your friends ran off without you
And left you with your pants down

You're nothing but a lonely clown
With out a circus
A sheep that's lost the flock
Your nothing but a lonely clown
With out a circus
We're just here to rock
