Get with It!

Kid quit it, get with it Kid quit it, get with it You're getting on my nerves Is that what I deserve

I know I can't play guitar So kill me quickly And I'll be glad I'm gone

You wouldn't be so cool If your friends ran off without you And left you with your pants down

You're nothing but a lonely clown With out a circus A sheep that's lost the flock Your nothing but a lonely clown With out a circus We're just here to rock
