

It's Me on the Dance Floor

My Brightest Diamond

(That's right)
I'm all alone
I'm all alone, turn the lights low

I'm looking out
I'm looking out, for someone to see
And someone to be seen

But maybe
It's me
It's me I'm looking for
It's me
It's me on the dance floor
It's me
It's me I've been looking for
It's me
It's me on the dance floor

(That's right)
I've been going out
(That's right)
I've been going out on a limb
I begin to see who I might really be
Who I might really be
Who I might really be
Who I might really be

It's me
It's me I'm looking for
It's me
It's me on the dancefloor
It's me
It's me I've been looking for
It's me
It's me on the dance floor

I was looking for someone
Who might see me
And I might see too
Maybe that is you
Maybe
It's me
It's me I'm looking for
It's me
It's me on the dance floor
It's me
It's me I've been looking for
It's me
It's me on the dance floor
