

Supernova

My Brightest Diamond

I love you though you're different than me
You don't look like me
You don't talk like me, you don't
I love you though you're foreign to me
And unknown to me
And there is no, no, no assuming
I love you 'cause you're wanting to be
More of you and nobody
Can never ever try to be

A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy

Let love (Let love)
Take us (Take us)
To a supernova
Super, super

Let love (Let love)
Take us (Take us)
To a supernova
To a super, supernova

And if I'm gonna say it to you
Can I say it to me too
Darlin' and darlin'
Now we are imaginin'
You bein' you and me bein' me
No, no, no diffusin'
An echo keeps repeating to me
More of you and nobody
Can never ever try to be

A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy
Now we are imaginin'
A copy, a copy, a copy, a copy
A copy, a copy, a copy, a copy
A copy

Let love (Let love)
Take us (Take us)
To a supernova
Super, super

Let love (Let love)
Take us (Take us)
To a supernova
To a super, supernova

Let love (Let love)
Take us (Take us)
To a supernova

Super, super

Let love (Let love)
Take us (Take us)
To a supernova
To a supernova

A copy, a copy, a copy, a copy
[Repeat to end of section]

To a super, super
To a supernova

Love
We'll make a supernova
In love
Super, super

Love
We'll make a supernova
In love
To a super, supernova

Love
We'll make a supernova
In love
Super, super

Love
We'll make a supernova
In love
To a super, supernova

To a super, super
To a super, super
Super, super
Super, super
