

Lily White Lies

My Passion

Shuffle in
And shuffle out
Trouble sideways
Check
Lover in
And lover out
Push her sideways
Huh
You don't mean what you mean what you...
Say
Come in undercover by my side my side...

Her fate doesn't matter
Her time is just calling wolf again
Her world starts to shatter
And so she breaks
Down, down
Yeah

Colour in
And rub her out
Girl go sideways
Check
Lover in
And lover out
Push her sideways
Huh
You don't mean what you mean what you...
Say
Come in undercover by my side my side...
Go

Your face doesn't matter
Your eyes are like falling into rain
Your world on a platter
And so he goes
Down, down

Her fate doesn't matter
Her time is just calling wolf again
Her world starts to shatter
And so she breaks
Down, down, down
