

Winter For Lovers

My Passion

I love you still
Though its winter here
In your house
I want you still
Though the devil puts you down
What can you do?
I can feel the voice inside
What can you do?
Little girl smiled as the big girl cried
I love you still
Its so quiet here
In the dark
I want you more
Than the money wants your heart
What can you do?
Struggle & twist in the cord she tied
What can you do?
Slip the silver to the judge who tried
A sea of burning tar
A sea of illusion deep inside

Crack my head down
A sea of burning tar
Crack my head down
A sea of burning tar
Living like this is nothing like bliss
Oh crack my head oh crack my head

The mirror steal
All the pleasure here
From this house
The shadow smile
As you lay upon the ground
What can you do?
I will keep the boy inside
What can you do?
One man listens and the other man lies
A sea of burning tar
A sea of illusion deep inside

Crack my head down
A sea of burning tar
Crack my head down
A sea of burning tar
Living like this is nothing like bliss
Oh crack my head oh crack my head

She may blow all my dreams away
