

Must Be the Music

Mýa

I can't control my feet (my feet)
I can't control my hands (my hands)
It makes me get out my seat (my seat)
It makes me stand up and dance (makes me wanna dance)

I can't control my feet (I can't control my feet)
I can't control my hands (I can't control my hands)
It makes me get out my seat (it makes me get out my seat)
It makes me stand up and dance (it makes me wanna dance)

It must be the music
That makes me, makes me lose control
Must be the music, it must be the music
That makes me feel I'm 3 years old
It must be the music

I was standing there alone looking like a innocent school girl
Until my favorite, favorite song came on
That's when I hit the dance floor all night long
Everyone was staring, all upon all in the moment I didn't realize
My mascara was fronting, running down from my eyes
My hair all over the place, sweat went down my face
Dropping that 808, it makes me high

It must be the music, must be the music
That makes me, makes me lose control
It must be the music, it must be the music
That makes me feel I'm 3 years old
It must be the music, must be the music
That makes me go up of my head
It must be the music, must be the music
That makes me feel I gotta dance
It must be the music

Doctors say that I can't fight it, the music's got a hold on me
It's got my body so excited, it keeps moving to the beat
And I cant stop it (no), so I just drop it (no)
I'm so on fire, about to come up out my clothes
DJ bring it back, let me hear it one more time
Damn, that's a hot track, just let the record spin
It got me in a trance so I just gotta dance
Feels like I lost control but now I know

It must be the music, must be the music
That makes me, makes me lose control
It must be the music, it must be the music
That makes me feel I'm 3 years old
It must be the music, must be the music
That makes me go up of my head
It must be the music, must be the music
That makes me feel I gotta dance
It must be the music

I can't control my feet (my feet)
I can't control my hands (my hands)
It makes me get out my seat (my seat)
It makes me stand up and dance (it makes me wanna dance)

(Hear the music) I can't control my feet
(Feel the music) I can't control my hands
(Love the music) it makes me get out my seat
(Breathe the music) it makes me stand up and dance

Step inside of the music, live inside of the music
We are one with the music, together one with the music

Can't you see the music ask control of me, I'm liking it
Enters your body, I keep going and going (oh let's go)
Can't you see the music ask control of me, I'm liking it
Enters your body, I keep going and going (on and on)

It must be the music, must be the music
That makes me, makes me lose control
It must be the music, it must be the music
That makes me feel I'm 3 years old
It must be the music, must be the music
That makes me go up of my head
It must be the music, must be the music
That makes me feel I gotta dance
It must be the music (music, music)
It must, must be the music (music, music)
It must, must be the music
It must be the music, must be the music
That makes me go up of my head
It must be the music, must be the music
That makes me feel I gotta dance
It must be the music
