

## Act I: Elysium 77

MyChildren MyBride

Disappear, We disappear

If I let you take me to the depths unknown  
If I let you take my hand  
And jump down the rabbit hole

Through forests deep, and oceans wide  
If I let you take my hand and venture to the other side  
The other side

We are interstellar  
Its clear we don't belong here

Just hold me close  
And slowly wait until we disappear  
We are interstellar  
Floating through the atmosphere  
Just hold me close and  
Slowly wait until we disappear

I'll follow you  
Through space and through time  
If I let you take my hand  
And venture to the other side
