

Cicada sing your song
(Sing your song)
Shed your shell
And carry on

We are humanity
Broken and bleeding
But this heart
Its beating
Pumping unity, pumping unity
Pumping
Pumping unity, pumping unity

We can't escape this reality

As a world we're failing
Destroying, depleting
Intelligent beings?

Humanity as a whole
There is no where
No where else to go

And it has begun
Rising moon and falling sun
Cicada rise from your hole
(From your hole)
Spread your wings
You're not alone (You're not alone)

Revolution or evolution
All I know is we need a solution
