

Could Be Wrong

MYMP

If I could hold your hand
Look into your eyes
Would you try to understand?
The things I'm gonna say

If I could show you boy
How much I feel for you
Would you turn around?
And tell me you feel the same way too

Could be wrong you know
Coming out the blue
I really have to say this
Baby I LOVE YOU

If I could get it right
And tell you face to face
Would you think that I am true?
Believe me when I say

I wanna let you know
I just don't know the way
I wanna shout it out
Hear me when I say

These blues will always hang around
Until the moment I let it go
And let you know

I wanna let you know
I just don't know the way
I wanna shout it out
Hear me when I say

[Repeat I to III Stanza]

Baby I love you
I wanna let you know
Baby I love you
This you oughta know
