Robot boy

MYNAME

As of now, I don't know which is left or right
My emotions lock, they sound like the gear of a clock
It was wishful thinking I could only depend on you
My rusted body, only weakened strength remaining
When you were here, it felt so natural
You'd laugh and your skin, so soft and warm
All feelings of love and affection have faded away
And only I, robot boy, remain

I cry with my tin face, but my tears are brown
Sadness? Loneliness? Such emotions are lost
I scraped each memory of you, love, oh no
Fix me. Can you come and fix me?
Fix my broken heart beat, robot boy
Fix me. Can you come and fix me?
Fix my broken heart beat, robot boy
huh, huh, huh, huh, huh, huh

The true meaning of a sigh suddenly spilling forth,
With the exception of the feeling that something
Has broke down, is never, none
You're the backdrop to my backed up memory
The humanity which was not lost, was hurting me
The world is expressionless in itself
But to laugh and to cry is my reason for living
And yet, I've abandoned all feelings of love and affection
Such is I, robot boy

I cry with my tin face, but my tears are brown
Sadness? Loneliness? Such emotions are lost
I scraped each memory of you, love, oh no
Fix me. Can you come and fix me?
Fix my broken heart beat, robot boy
Fix me. Can you come and fix me?
Fix my broken heart beat, robot boy
huh, huh, huh, huh, huh, huh

She left me broke down, trash bound
My real voice shall never return
Find me in this lost and found
I want to return to being a human and home
Fix me. Can you come replace
But if it is not the original, my CPU
That'll boost, boost, boost, boost, boost to crash
Override all the data in my memory too
Can you give me love? I need only one person
Can you be my tech support for life, for life
I accessed your data and saw that the domain name
Has been changed to that of a lover,
The name of someone I do not know

I cry with my tin face, but my tears are brown
Sadness? Loneliness? Such emotions are lost
I scraped each memory of you, love, oh no
Fix me, can you come and fix me?
Fix my broken heart beat, robot boy
Fix me, can you come and fix me?

```
Fix my broken heart beat, robot boy
huh, huh, huh, huh, huh, huh
```
