

# Lady Grey

Mystery Jets

Lady Grey  
You know how to rub me up the right way  
And you're just the kind of mess I'm looking for today  
You're just so, you're just so

And my Lady Grey  
Girl, you kiss like you don't even know what day it is  
And you don't, and you don't

And I hope you feel the same way too, my love, my love  
And I hope you feel the same way too, my love

But will you still love me in the morning?  
And will you still answer when I'm calling?  
Yeah, will you still love me in the morning?  
In the morning, morning

And my Lady Grey  
Well, you scrub up well but I wasn't born yesterday  
And if life gives you lemons, you make lemonade  
'Cause you know, 'cause you know

And I hope you feel the same way too, my love, my love  
And I hope you feel the same way too, my love

But will still love me in the morning?  
And will you still call me as I'm calling  
Yeah, will you still love me in the morning?  
In the morning, in the morning

And I hope you feel the same way too, my love, my love  
And I hope you feel the same way too, my love

And I hope you feel the same way too, yeah  
I hope you feel the same way too, yeah  
And I hope you feel the same way too, my love

But will still love me in the morning?  
And will you still answer when I'm calling?  
Yeah, will you still love me in the morning?  
Darling, give me a warning, a warning

Will you still love me in the morning?  
In the morning, in the morning, my love  
In the morning, in the morning
