

Cold Shoulder

N-Dubz

Why don't you come over, warm up your cold shoulder?
Yeah we can get crazy baby, all night, before we get sober
You got yourself now that ain't good for my health
If you carry on burning hot much longer
The flow beneath me's gone out

Follow me to the bar baby
I'ma ... take it to my Mercedes
Put the roof down like it was the mid 80's
Show my gas thinking I'ma drive you crazy

Take a look at the time,
Baby quit playing games cause the sun's about to rise
We've been here all night only live once so might as well act like this

Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up, I'm gonna keep
you up
Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up tonight

I'm all dressed in black, and I'm all off my head
... I'm gonna get between your legs
... let me do it, I'ma drive you crazy
Take a look at the time,
Baby quit playing games cause the sun's about to rise
We've been here all night only live once so might as well act like this

Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up, I'm gonna keep
you up
Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up tonight

No more talking let's go, what you standing there for?
Let's get it ... get wasted then we'll party some more
No more talking let's go, I just can't wait no more
I'ma hit the floor now, I'm gonna keep you up

Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up, I'm gonna keep
you up

Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up tonight
Way to hang over something ... for you I'm gonna keep you up, I'm gonna keep
you up
Why don't you come over, warm up your cold shoulder?
A way to get crazy baby all night before we get sober
Way to hang over something ... for you I'm gonna keep you up tonight
