

# Burning Bridges

Nachtmahr

The blood we spilled  
The enemies that we killed

The wars we fought  
The lessons that we taught

The time we spent  
Has helped me comprehend

That you and me  
Are on a crash course to misery

When everything is said and done  
And there's nothing left to say  
Let the light of burning bridges  
Forever guide your way

The people we used  
The drugs that we abused

The lies we spoke  
The agreements that we broke

The time we spent  
Has made me understand

To not return  
To a bridge I have to burn
