

Naildown crew, take your positions
Close your doors and cross check the exits
Prepare for lockdown

A determined rage flows
From the deepest gutter of my soul
Fragility has bashed by, hatred ahead
Lethal mode on

Something to say?
Excuses only?

No more kindness
I'll show where you stand
No more pleasure
It's time for damage
Pay... back... is... a bitch

Elimination my gift to you
Your sins I'll make you swallow
Three seconds is all you have
Before I'll put you down

Something to say?
Excuses only?
(Excuses only?)

No more kindness
I'll show where you stand
No more pleasure
It's time for damage

No more kindness
I'll show where you stand
No more pleasure
It's time for damage
Pay... back... is... a bitch

Something to say?
Last words only...

No more kindness
I'll show where you stand
No more pleasure
It's time for damage

No more kindness
I'll show where you stand
No more pleasure
It's time for damage

No more kindness
I'll show where you stand
No more pleasure
It's time for damage
Pay... back... is... a bitch
