

Like Those Roses

Najwajeen

Exploding stars and striking comets
Soon it's gonna be your time
You don't need to scare nobody
Soon it's gonna be your time

I like to feel those roses in my skin
I like to feel those roses,
You know what I mean (2x)

I like to feel all those roses in my skin (2x)

Yellow bells, blue blue sky
Soon it's gonna be your time
You don't need to fright nobody
Soon it's gonna be your time

If you wanna be great stip
Look into your empty eyes
Exploding starless, seeking comets
Soon it's gonna be your time

I like to feel those roses in my skin
I like to feel those roses,
You know what I mean (2x)

I like to feel all those roses in my skin (2x)

I like to feel those roses
I like to feel those roses
