

The Storm

Nana Darkman

it's me against the storm
this is now or never
it's me against the storm
i wanna live forever
i need to find a way
to save another day
but until i do
it's me against the storm

stop complainin' start entertainin'
if ya ain't satisfied with your life break the chain
and
march these steps with me and my piano
smile when it hurts mom said now she's dead
light up a candle for the dead and gone
and a moment of silence a moment of mourn
the king of pop mr. Jackson is gone
i remember the line of a song the show must go on
now is the time to be strong
if the lord is my shepherd i am the eye of the storm
now must be right no wrongs
if i am lost in the desert he'll guide me home
i am walkin' down a path and i can smell fresh green
gras
provided with water and a steam bath
and i never had to do no rehab
steady ready for the storm yo believe that

it's me against the storm
this is now or never
it's me against the storm
i wanna live forever
i need to find a way
to save another day
but until i do
it's me against the storm

a new day is born my nigga don't suffer
life can be short man ask big poppa
get ready for the storm get your boots and ya parka
lend me ya ear for a quick our father
now that ya scared you are callin' me a brother
so never judge a book by the price or cover
stop complainin' start entertainin' and
roll up ya sleeves and stand like a man
let the wind blow let it blow like a fan
i will never walk alone because he knows i am a fan
there's window i can see it in your eyes
you are scared as fuck but god has a plan
there's an angel so it's straight ahead
left or right but no u-turns
the spice in me is the light yeah burn baby burn
we still got a lot to learn

i wanna live forever (2x)
why can't we live forever (2x)
nobody really really wants to die

we only want to live our lives
until i do
