

# There's No Place Like Home

Nancy Sinatra

When the soft rain is falling  
Though you may want to run  
You will hear your heart calling  
There's no place like home

And your good fortune's found you  
Wherever you may run  
With your loved ones all around you  
There's no place like home

There's no place like home  
The sound we sweetly say  
There's no place like home  
Specially today

A distant bell is ringing  
The children are all singing  
And everybody is swinging  
There's no place like home

Being ever so humble  
There's no place like home  
There's no place like home
