

# You're Gonna Make Love To Me

Nancy Sinatra

Look into my eyes deeper, deeper  
Can't you feel yourself getting drowsier, drowsier

Sleep, when you wake up  
You will make to love to the very first person you see  
When I snap my fingers, you will wake up  
And the first one you'll see is me

You're gonna make love to me  
I can't resist, I'll say no  
You'll say I insist  
Then I'll give in, for what more can I do  
You're gonna make love to me  
Tender love, just like I've been dreaming of  
Open your eyes at the count of three  
And make love to me

Listen to my voice softer, softer  
Floating on a cloud getting drowsier, drowsier

Sleep, when you wake up  
You will make to love to the very first person you see  
When I snap my fingers, you will wake up  
And the first one you'll see will be me

You're gonna make love to me  
I'll resist, I'll say no  
You'll say I insist  
Then I'll give in, for what more could I do  
You're gonna make love to me  
Tender love, just like I've been dreaming of  
Open your eyes at the count of three  
And make love to me

One, two, three

Love to me, love to me  
Baby  
Love to me, love to me  
Baby  
Love to me, love to me  
Baby  
Love to me, love to me  
Baby  
Love to me, love to me  
Baby
