

What About Me

Naomi Terra

You left
Nothing unturned
Nothing untouched when you left
this town

And i know
The only thing you
promised
Was to be with me
When you were
around

But what about me
I wanna know
What
about me
Did you think you could do so much better
What
about me
And now i know
That you think that you got what
you needed
But what about me what about me

And
i'm here
Telling myself
Everything i got when you
were around
A broken heart
A broken mind
A brand new
way to feel down

And what about me
I wanna
know
What about me
Did you think you could do so much
better
What about me
And now i know
That you think
that you got what you needed
But what about me what about
me

And did you know
Did you know
That when you
left
You weren't the only thing to go
And i'm
still waiting
I'm still waiting
I'm still
waiting'..

And what about me
I wanna
know
What about me
Did you think you could do so much
better
What about me
And now i know
That you think
that you got what you needed
But what about me what about
me
