

Protection Racket

Napalm Death

For the common good,
that glare so piercing
it will burn through your back
Reach, re-educate the soul
(even though this is feigned)
Because you need to be taken to task

Obscure my face
In Shadows I'll consolidate
Unmasked, I'd be whipped into shape
In shadows I'll consolidate

False alarmist
- they will brand it on your back
Or maniacal sadist,
when you are barely defence-minded
Because you walk right out of step

Obscure my face
Effectively decapitate
Unbowed through
the smear campaign
Effectively decapitate

Effectively, socially,
protectively decapitated.

Whiteout in the blackout
So everybody's running scared
Whiteout in the blackout
Rank and file and all upstanding
with selective downplaying
Whiteout in the blackout

Whiteout in the blackout
So the oft-duped
are grossly impaired
Whiteout in the blackout
Startled, unsettled,
thus curiosity expelled
Whiteout in the blackout

Homogenous
- I'm surplus to this time
that's well contained
Sullied rat in basement trap
with vital exposé

For your own protection,
for the retardation...
