They wanna shine on 'em Shine on 'em (7x)
Yeah

They dug me out the soil in the Mines of the Motherland Now I'm misplaced, one hand to another hand Illegal smugglin', people strugglin' Wish they could just throw me back in the mud again Yeah, guess that's how we got here Slave Trade then the Diamond Trade Every child's afraid When his Mother and Father get sprayed Forced in the Army, young killer Brigade Gets a new name and then he give his nose glue Til' his mind can't take what he's gon' through Lookin' in that dirt for that ice so blue Then The Royal Family, the ice goes to And this thing has to change, feelin' half-ashamed As I rap with my Platinum chain When you shop for a gift for me You think about the misery? The same way we made Apartheid History We can do the same thing to the conflict ice But everybody wanna shine, right?

Everybody wants Heaven but nobody wants dead Everybody wants Diamonds without the Bloodshed Everybody wants Heaven but nobody wants dead Everybody wants Diamonds without the Bloodshed They wanna Shine on 'em Shine on 'em (7x)

My VVS glimmers on my chest
200-thou-encrusted watch on my wrist
I wonder how people starve to death
When God bless the land that lacks the harvest
The stone's equality, but they homes are poverty
And the whole world ignores the robbery
Bought my girl pretty rocks when she's mad at me
Tear-drop shaped, uh, perfect Clarity
It shocks, so many are killed annually
'Cause of greed, lust, and pure Vanity
Stop talkin' and do somethin' about it
Every Holiday Season, Jewelry stores crowded
Kids snatched from their homes, Mutilated alive
Husbands separated from wives, keep a Jesus piece to be fly
But back in the day there was a time when they called us shine

Everybody wants Heaven but nobody wants dead Everybody wants Diamonds without the Bloodshed Everybody wants Heaven but nobody wants dead Everybody wants Diamonds without the Bloodshed They wanna shine on 'em Shine on 'em (7x)
