

# Can't Remember Never Loving You

Nashville Cast

There's never been a day, when I walked this world alone  
There never was a night, that I didn't feel at home  
You've been a part of me forever  
On this road I've traveled on  
For so long

It's like you've been the only one for all my life  
Like I've never looking into another's eyes  
The only hand I've ever held on to  
No, I can't remember never loving you

Every morning I wake up and I thank my lucky stars  
Another day with you, my love is where you are  
It's simple and it's beautiful  
I guess some things never change  
Never change

It's like you've been the only one for all my life  
Like I've never looking into another's eyes  
The only hand I've ever held on to  
No, I can't remember never loving you

It's like you've been the only one for all my life  
Like I've never looking into another's eyes  
The only hand I've ever held on to  
No, I can't remember never loving you

No, I can't remember never loving you
