

# Everything I'll Ever Need

Nashville Cast

I got rain but I got shine  
I might be older but I still got time  
Even when the words don't rhyme  
I still hear a love song

I've been broken and I've been bruised  
All I had, I had to lose  
No more singin' 'em worn-out blues  
Been singin' 'em way too long

I don't know, whoa, whoa, what keeps me rollin'  
But I know, whoa, whoa what gets me through

The taste of honey in your sweet, sweet kiss  
Your dinner bell, I'll never miss  
The fire that burns between you and me  
Everything I'll ever need

The sound of angels when I hear your voice  
I surrender, I don't have a choice  
The fire that burns between you and me  
Everything I'll ever need

In my arms as the red sun sets  
Times like these, I'll never forget  
Like the rage of fire between you and me  
It's everything I'll ever need

I don't know, whoa, whoa, what keeps me rollin'  
But I know, whoa, whoa what gets me through

The sound of angels when I hear your voice  
I surrender, I don't have a choice  
The fire that burns between you and me  
Everything I'll ever need

Everything I'll ever need

Everything I'll ever need
