

## In Love

### Nashville Cast

Love is love  
So love should come before you judge another one  
It's easy if you try

Heart to hearts seems far apart  
From where we are and where we start  
We can make it right

Make the change  
Break the chain  
We're all the same  
We're all the same  
In love

Day by day I pray and wait  
For those who hate to change their way  
We can start tonight

On and on the road is long  
But even though the sun feels gone  
We can find the light

Make the change  
Break the chain  
We're all the same  
We're all the same  
In love

Make the change  
Break the chain  
We're all the same  
We're all the same  
In love

Love is love  
So love should come before you judge another one  
It's easy if you try
