

Is There Anybody Out There

Nashville Cast

Hold on
Falling into nothing
Hold on
Waiting for someone
Is there anybody out there?
Is there anybody out there?
'Cause I'm right here
Is there anybody out there?

I shout against the mountain
Nothing echoes back
Slipping
Like I'm climbing up a mountain edge
Is there anybody out there?
Is there anybody out there?
When I'm right here
Is there anybody out there?

Is there anybody out there?
Is there anybody out there?
I'm right here
Oh, is there anybody out there?
Is there anybody out there?
Is there anybody out there?
I'm right here
Oh, is there anybody out there?
