

# No One Cares About Your Dreams

Nashville Cast

No one awake cares about your dreams  
So the stories that you make up while you sleep  
The magic spells  
The tower of life  
The heavenly hells  
The power of flight  
No one cares about your dreams

And the person whom they said you were to be  
Affected one gonna set the whole world free  
Mother said you could do anything  
Brother you could be the next Dr. King  
And no one would care about your dreams

Aah, stay til morning comes  
Aah, fade into the sun

I saw you in my dream last night  
Your eyes were blue  
But your skin was black and white  
If your dreams came true  
You'd still be mine  
If your dreams came true  
You'd be alive

No one cares about your dreams  
Nobody cares except me  
I believe [x7]
