

# Plenty Far To Fall

Nashville Cast

We could be wrong  
But there's somethin' about thinkin' about you  
That feels so right  
We should be movin' on  
We can worry about that tomorrow  
But not tonight

Come a little closer, come a little closer  
Come a little closer, come a little closer

Come on, honey, stay a little longer  
At least until the sun comes up again  
We got time for one last kiss before last call  
Darlin', we got plenty far to fall

I know you're feelin' guilty  
Not too guilty, not to take you home  
I, I, I, I know how much you want me  
And I know you want me more than you let on

Come a little closer, come a little closer  
Come a little closer come a little closer

Come on, honey, stay a little longer  
At least until the sun comes up again  
We got time for one last kiss before last call  
Darlin', we got plenty far to fall

Come a little closer, come a little closer  
Come a little closer come a little closer

Come on, honey, stay a little longer  
At least until the sun comes up again  
We got time for one last kiss before last call  
Darlin', we got plenty far to fall

Come on, honey, stay a little longer  
At least until the sun comes up again  
We got time for one last kiss before last call  
Darlin', we got plenty far to fall  
Darlin', we got plenty far to fall
