

Run With Me

Nashville Cast

Yeah I am who I am
'Cause I been where I been
I seen the wrong side of the fence
That's why I stay on the move
Doin' what I do
Livin' it up while I can

No there ain't no road block baby
Ain't no red lights baby
Not a stop sign baby
On this rock and roll road
That gets wild, wild and free
Baby learn learn how to fly
If you wanna run with me

Yeah I roll and I roll
Never taking it slow
Even when I'm just an inch from the ledge
It's a crazy ride
That's just fine
'Cause I was born for leaning over the edge

Livin' like a rock star baby
I go all out baby
Can't get enough baby of this hell-raising life
That is
Wild, wild and free
Baby learn how to fly
If you wanna run with me

Yeah I don't know how
I'll ever settle down
That just ain't in my blood
So give me more, more, more
Keep it to the floor
Until my time is up

On this road that gets
Wild, wild and free
Baby learn how to fly
If you wanna run with me
I said if you wanna run and you think that you can run with me
