

Stronger Than Me

Nashville Cast

Oh, here I go again
walking the line
killing time between my sins
Oh, why do I come here
The ending's still the same
I'm bringing back old tears
I act like I don't know
Where this road will go

Pour me something stronger
Pour me something straight
All these crooked voices, make them go away
I can barely stand up
I can hardly breathe
Pour me something stronger than me
Pour me something stronger than me

Sunrise hurts as much as you
You both come when I don't want you to
Oh, I – can still hear you say
That you and I would both be better off this way
These things that I run to
What I put my heart through

Pour me something stronger
Pour me something straight
All these crooked voices, make them go away
I can barely stand up
I can hardly breathe
Pour me something stronger than me
