

Wandering Roads

Nashville Cast

Wandering roads that carry me home
Lead me through both right and wrong
I may love and I may lose
Still I know I'll always choose
To live the highs and lows
All on my journey home

Since the day that you were born
Footsteps fall in a path well-worn
Strings that pull, you'll never see
Chains that bind you, set you free
All on your journey home

Wandering roads that carry me home
Lead me through both right and wrong
I may love and I may lose
Still I know I'll always choose
To live the highs and lows
All on my journey home

You know, that child you are inside
Tell us, she doesn't have to hide
Take her hand, let her lead
She'll bring you warm, you'll ever need
All on your journey home

Wandering roads that carry me home
Lead me through both right and wrong
I may love and I may lose
Still I know I'll always choose
To live the highs and lows
All on my journey home

Ooh

On the day your journey's done
Before a new one has begun
What will you be thinking of?
What you own to who you loved
All on your journey home

Wandering roads that carry me home
Lead me through both right and wrong
I may love and I may lose
Still I know I'll always choose
To live the highs and lows
All on my journey home

Ooh
