

When The Right One Comes Along

Nashville Cast

There's no music, no confetti
Crowds don't cheer and bells don't ring
But you'll know it, I can guarantee
When the right one comes along

What they're thinkin, what your feeling
You know longer have to guess
All those questions finally put to rest
When the right one comes along

Every single broken heart will lead you to the truth
You think you know what you're looking for
Til what you're looking for finds you

In a cold world, it's a warm place
Where you know that you're supposed to be
A million moments full of sweet release
When the right one comes along

Every single broken heart will lead you to the truth
You think you know what you're looking for
Til what you're looking for finds you

It's so easy, nothing too real
Though you may not believe me now
Oh but I promise, honey you'll find out
When the right one comes along

All that changes is only everything
When the right one comes along
