

When You Open Your Eyes

Nashville Cast

When you close your eyes you can only go back
To the place in your mind where it all goes off track
Stayin' up all night starin' at the ceiling fan
Round and round you go

Breathe, let it all go by
Breathe, I'm always by your side
Lean on me now (lean on me)
I'll still be here when you open your eyes... oooh

When the sun breaks through and you're feelin' strong
When you give your best but it still goes wrong
Either way I'll always be your home
Through the highs and lows (oooh)
Up and down we go

Breathe, let it all go by
Breathe, I'm always by your side
Lean on me now
I'll still be here when you open your eyes... oooh
When you open your eyes... oooh

Breathe
Breathe, let it all go by
Breathe, I'm always by your side
Lean on me now
I'll still be here when you open your eyes... oooh
When you open your eyes... oooh
When you open your eyes... oooh
