

## Whiskey Lips

Nashville Cast

When I rise in the morning  
She's on my mind  
Till I hold her I won't be okay  
And I can see she's killin' me this love that is blind  
Still I just can't walk away

She's my weakness and I give in  
No matter how hard I try  
My sweet addiction'll end someday when  
I kiss those whiskey lips  
Goodbye ah ah ah...

It was good for a while  
And she used to make me smile  
When I hurt she was always good for me  
But she ain't no good no more  
Now I'm just prayin' for  
The day that I can say she's finally set me free

She's my weakness and I give in  
No matter how hard I try  
My sweet addiction'll end someday  
When I kiss those whiskey lips  
Goodbye ah ah ah...

There are days when I'm strong  
But they never last too long  
I just can't resist when she's around  
But it helps me to know  
There's a place that she can't go  
And I'll get there when they put me in the ground

She's my weakness and I give in  
No matter how hard I try  
My sweet addiction'll end someday  
When I kiss those whiskey lips  
Goodbye ah ah ah...
