

You're Mine

Nashville Cast

I know the rain may fall
And the clouds roll in
Until we think we won't
See the sky again
With you right here
Your hand in mine
I know these storms will pass
And the sun will shine
And through the good times
And the bad times
You're mine
I promise you
Right here, right now
I won't ever let you go
This I vow
And through the good times
And the bad times
You're mine
Yeah the good times
And the bad times
You're mine
You're mine
You're mine
You're mine
You're mine
When the years have passed
And we're old and grey
I'll be standing here
Where I am today
Through the good times and the bad times
The good and the bad times you're mine
