

Your Best

Nashville Cast

Standing on the edge of the way down
Watching the seasons as they turn around
I've been afraid to make a change
'Cause there's no writing on the next page

All you gotta do, all you gotta be is your best
Keep spinning with the world, dancing to the beat in your chest
What goes around comes around, don't forget
All you gotta do, all you gotta be is
Your best

The only way out is to break through
In the darkness you will find the truth
It's been inside you this whole time
It's not about crossing the finish line

All you gotta do, all you gotta be is your best
Keep spinning with the world, dancing to the beat in your chest
What goes around comes around, don't forget
All you gotta do, all you gotta be is
Your best

All you gotta do, all you gotta be is your best
Keep spinning with the world, dancing to the beat in your chest
What goes around comes around, don't forget
All you gotta do, all you gotta be, ooh
All you gotta do, all you gotta be, ooh
All you gotta do, all you gotta be is
Your best
