

# Believe In Me

Nasri

I think about it when I wake in the morning  
I dream about it when I sleep at night  
It's too powerful to ignore it  
'Cause I want it so bad, so bad.  
Gotta keep myself together  
'Cause this could be mine forever  
And if I fall I will remember  
That I can just get up and do it again.

'Cause as long as my heart is beating  
And as long as I keep dreaming,  
I will never stop believing  
No matter where I go, what I do,  
I will always believe in me, ohoh  
Believe in me, believe in me  
Believe in me, believe in me, believe in me, yeah  
I will always believe in me.

It doesn't matter if you're six or sixty  
It doesn't matter if you're black or white  
It doesn't matter your pocket's empty  
'Cause it all starts inside.  
If the odds are up against me  
I will not surrender gently  
I will fight until I'm empty  
And I will not give up 'til I get it right.

'Cause as long as my heart is beating  
And as long as I keep dreaming,  
I will never stop believing  
No matter where I go, what I do,  
I will always believe in me, ohoh  
Believe in me, believe in me  
Believe in me, believe in me, believe in me, yeah  
I will always believe in me.

[Instrumental break]

'Cause as long as my heart is beating  
And as long as I keep dreaming,  
I will never stop believing  
No matter where I go, what I do,  
I will always believe in me, ohoh  
Believe in me, believe in me (oh oh)  
Believe in me, (oh oh) believe in me, (oh oh) believe in me, yeah  
I will always believe in me
