

Empty Apartment

Nasri

Every single box is another memory
Every single thought has a lock without a key
Pictures on the wall now they fall on the floor
But I can still see her

Walking through the room I remember all the nights
If you heard a noise you will know that was a fight
But if you took a look you will see it in my eyes
That I love that girl

Is over, she's sure
I watch her, she took everything
I can't stay here anymore
Is my? just an empty apartment

Now that she's gone it's just an empty apartment
We used to come home, it's just an empty apartment
Just an empty apartment

Remembering the days when we didn't have a bed
Sleeping on the floor, we could barely?
She never complain she just save her bedroom safe
Till I got on my feet

Life is moving fast, I was caught up in the high
She couldn't believe that a party will remain
Used to be just us not affected by the?
I killed that dream

Is over, she's sure
I watch her, she took everything
I can't stay here anymore
Is my? just an empty apartment
