

From A Distance

Nasri

Ohh Ohh Hey

How do I get close when she looks just like an angel?
A moment of her time just seems impossible to me
It's hard to find the words, to get to know this stranger
I'm scared of what she'll say, if what I say sounds incomplete

And it feels like we belong together
Can someone tell me where do I stop because

I can't keep on feeling the way I do
I can't keep on hiding my heart from you
I gotta say something before someone else comes through
I can't keep on loving you from a distance

She's always on my mind
There's no room left for thinking
I'm tired of waiting, slowly fading
Needs to happen now
'Cause I'm running out of time and I feel this ship is sinking
The doors are closing, I am frozen
I need her around

And it feels like we belong together
Can someone tell me where do I stop? (where do I stop?)
Hey 'cause

I can't keep on feeling the way I do (oh no)
I can't keep on hiding my heart from you
I gotta say something before someone else comes through
I can't keep on loving you from a distance
From a distance
From a distance
From a distance
From a distance

'Cause I can't hide
I can't keep on feeling the way I do, no no
I can't keep on hiding my heart from you
I gotta say something before someone else comes through
Baby, I can't keep on loving you, no no
I can't keep on loving you, hey
I can't keep on loving you from a distance
