

Purple Haze

Našrot

Purple haze is in my brain
Lately things just dont seem the same
Actin funny, but I dont know how
excuse me while I kiss the sky

Purple haze all around
Dont know if I'm comin up or down
Am I happy or in misery?
Whar ever it is, that girl put spell on me

Purple haze all in my eyes
Dont know if it day or night
You got me blowin all my mind
tomorrow or just the end of time

Help me baby, help me baby
help me baby help me baby
