

## Fire

Nasty

Promising better  
All gonna be good  
Change is gonna come  
Problems will be solved  
You're face on the wall smiling like a friend  
And people are surprised you fooled em all again

Yes we know you said that. Liar!  
So we put it to the test. Trier!  
Your promises not kept. Liar!  
Our answer to your lies. Fire!

Money talks and you talk to get it  
Increasing your wages as soon as you're elected  
How can you chow down a feast cooked by hungry hands?  
Talk about equality while you are more equal than anybody else?

Yes we know you said that. Liar!  
So we put it to the test. Trier!  
Your promises not kept. Liar!  
Our answer to your lies. Fire!

This is going to be final  
Gas to the bottle  
Fire to the torch  
Your structures to ashes  
Lies they gonna scorch

Liar! Burning your disguise  
Fire! Our answer to your lies
