

Blind World

Nasum

I live in my own world, me and my family
To things that happens in the third world
I turn my back

Why be so fucking trapped in yourself
Stand up and say no to the bad things in life

I don't see anything!

If we could open our eyes and see how it is
Instead of running away from the truth

I live in my own world, me and my family
To things that happens in the third world
I turn my back

Why be so fucking trapped in yourself
Stand up and say no to the bad things in life

I don't see anything!

If we could open our eyes and see how it is
Instead of running away from the truth

I live in my own world, me and my family
To things that happens in the third world
I turn my back

Why be so fucking trapped in yourself
Stand up and say no to the bad things in life

I don't see anything!

If we could open our eyes and see how it is
Instead of running away from the truth
