Evacuate The Earth

Nasum

Evacuate the earth! What else can we do?

Evacuate the earth! Time is running short...

No time for repentance, no time for regret just leave this forsaken ground

The dream about the utopia
is just an inversion of the truth

Succumb - the horror, invoke - the end

Evacuate the earth! End all while you can
Evacuate the earth! Do not postpone your fate
Leave all the chaos, leave all the turmoil leave this carcass called earth
When all hope is lost, close your eyes
and fall into the illusion

Succumb - the horror, invoke
