## **Parting Is Such Sweet Sorrow**

Nasum

Born and raised by your rules Still I disappointed you But I've always done my best And it's never good for you

You never gave me air to breath You never clipped my wings And now I've failed again As a thousand times before

So now you see

Now you see what became of me
The extremely black sheep of the family
So let me hear you, "We told you so"
And get out of my life, fuck you
