## You've Got The Indian Sign On Me

## **Nat King Cole**

Kiss, you say and I kiss you Go, I go but I miss you You've got the Indian sign on me The Indian sign on me

Smile, and boy, I'm in stiches Frown, I'm down in the ditches My friends and relatives all agree You've got the Indian, Wild West Indian The Indian sign on me

I bluff and bluster, blow and bleat To prove each move is mine But I'm like Custer, I can't beat That old Indian sign

Wink, I babble and bubble Call, I'm there on the double You've got me dreaming you'll take my name And live in the same teepee With two little Indians, three little Indians Four little Indians, gee! You've got the Indian sign on me

You've got me dreaming you'll take my name And live in the same teepee With two little Indians, three little Indians Four little Indians, gee! You've got the Indian sign on me
