

Sock It To Me Country Style

Nat Stuckey

I got a thing about the long haired women their identity drives
me wild
And dancin' girls with painted eyes in mini skirts and bye bye
eyes
Guarantee to make me smile
And those wings and rings and uptown things may hold my intenti
on for a while
But if you want to keep me round then let your hair hang down
And sock it to me country style
I dig a lot about a new generation and the clothes they wear ai
n't bad
I didn't design those clothes and funny little shirts
And knee high boots and mini skirts but now I kinda wish that I
had
I like cowboy shirts and cowboy boots and Levi's and I like gir
ls who like my style
So if you want to keep me round then let your hair hang down
And sock it to me country style

I dig a lot about a new generation...
