

In His Eyes

Natalie Bassingthwaighte

I cant imagine losing the world
After spending a lifetime together
Im sure its not easy facing the dark
I wish I could make you feel better
It doesn't seem fair and it doesn't seem right
Your not alone, Ill be right by your side

Im glad I could stay a while
Im glad I could make you smile
But it's a long drive home and I really have to go
Everything will be alright
He'll be with you in your dreams tonight
And I can see his eyes when you look into mine
In his eyes

Don't be afraid to show how you feel
If it helps you to talk about him
Tell me your story when you were young
I want to know more about him
Lets take this time to recognize
He wants you to be happy and so do I

Im glad I could stay a while
Im glad I could make you smile
But it's a long drive home and I really have to go
Everything will be alright
He'll be with you in your dreams tonight
And you can see his eyes when you look into mine

Im here ahhh
Im here ahhh
Im here
In his eyes

Im glad I could stay a while
Im glad I could make you smile
But it's a long drive home and I really have to go
Everything will be alright
He'll be with you in your dreams tonight
And you can see his eyes when you look into mine

His eyes
